1. Quick, efficient, and transparent. I called prior and they were honest about a possible wait time — as I wanted to come in same day, however, I didn't have a problem waiting and set a same day appointment.

2. This is definitely the best urgent care in Burlington. I was in and out promptly, I was listened to, I was given a clear treatment plan. I do not remember my provider's name but he was very kind. Highly recommend this facility.

3. I saw PA Sorkin and he provided excellent care. He was very knowledgeable, friendly, and funny. He gave me some good tips on how to quickly recover. I can't recommend him enough!!

1. The Best Urgent Care Center in Greensboro North Carolina. Speedy, Reliable, and Excellent Customer Service.They certainly don't disappoint!!

2. I was in so much pain with my knee and back. I was almost in tears. The young woman doctor laughed and gave me a muscle relaxer said yeah your back is tight after rubbing lightly across it. After leaving there ended up in 2 other urgent cares. Finding out I had arthritis in my knee and getting cortisone shots. Felling somewhat better but this place was a joke. The receptionist on the other hand was really nice.

3. The receptionist at the front was very racist and rude. As a woman of color, I did not feel welcomed nor valued in this building. The receptionist did not speak to me upon my entrance, and I was the only client in the building. She kept her words short with me and maintained an unpleasant, disinterested face. When you know, you know. And I knew this woman had no interest in serving me or my needs.
